Education

- **El Camino High**

Graduated with class of 2008. Graduated with 8 transferable credits involving AP courses. Those AP courses include Comparative Politics, U.S. history, U.S. Government and Economics, and Studio Art 2D

- **Northern Arizona University**

I am currently enrolled in Northern Arizona's University College of Engineering, where I am pursuing a Bachelor of Science degree in Environmental Engineering and a minor in Mechanical Engineering.

Expected graduation: 2013

Attended: Fall 2008 through Spring 2013

Work Experience

Aerospace Intern

Safe Air Aviation, Air New Zealand

05/24/12-08/10/12

Responsible for testing and maintenance of composite aircraft propellers including SAAB 340, Faulker 50, and Super Constellation Aircrafts. Duties include a wide range of tasks including preparing the propellers for inspection to logistics management.

Lifeguard and Front Desk/ Client Management

San Diego Tennis and Racquet Club

06/13/11-08/14/11

Pool lifeguard which required me to be alert at all times. Front desk and client management required me to manage client's information and assist in any purchases or rentals at the tennis club.

Sales Representative

Vector Marketing Corporation

Gained immense experience in sales as well as experience in logistics and client management. Experience in making cold calls with over \$8,000 dollars in sales in 2 months. Allowed for growth and development in making sales and marketing to customers all around San Diego.

Rich Ltd Part time

June 08-present

Data Based Management

Utilization of Infusion Soft Software which gave me training and experience in management of clientele's information as well as logistics

Surf Instructor

Kahuna Bob's Surf School

Summer 08-Summer 11

Working in a friendly environment provided me with the skills necessary to communicate in a friendly and efficient manner where I was a surf instructor. Here, I taught people of all ages how to surf.

Surfboard Repair

Hendig's Surfboard Repair **09/07-08/10**

While working here, I repaired surfboard fractures, learned how to work with fiberglass, and cleaned up surfboards once they were ready to be picked up.

Courtesy Clerk

Ralphs Groceries **06/07-09/07**

While working at Ralphs the main duties that were assigned to me included sweep checks, bagging groceries, and helping customers in need if they're disabled.

- **Related Coursework**

Water Quality and Waste Water Engineering, Mass Transfer, Air Quality Control, Geo Technical Engineering, Applied Hydraulics, River and Stream Restoration, Water Unit Design, Surveying, and many other Civil and Environmental Engineering courses that are related.

- **Computer Skills**

Trained in:

- Auto Cad
- Auto Cad Civil 3-D
- HEC RAS
- Visual Help Model
- Hydro Flow
- Infusion-soft
- Solid works 2008
- Mat lab
- C++
- NQC Programming language
- Microsoft Excel, Word, Power Point,
- Screen3
- Wolfram Mathematica

- **Other Skills**

Red Cross certified in Emergency Response, Oxygen Administration, Lifeguarding, AED Administration, and Title 22. While working in teams in my engineering courses, I acquired great oral and written communications skills. I enjoy working in groups where communicating ideas with different people increases overall productivity.
