Meeting Minutes - Client Meeting
February 17th, 2023

Time	Notes
9:30pm	**Meeting Start** ● Chris absent
	Product Beta & Summary ● Isaiah just needs testing files to confirm beta works ● Some web servers are down, meaning some modules are unable to test ● Client will give us about eight "recipes" to add to the project ● Client would like to attend any events showing off the product ● Fixing AirFlow to run when user submits job, not at a predetermined time ● Reaching out for some images/videos for presentation

	New Features
	● Take components of existing recipes, but don't go through all steps
	● Reuse steps in other pipelines
	● End goal is to run on AWS EC2
	● Storage through S3
	● CloudFormation for deploying pipeline
	   ○ Auto Balancing for large loads?
	● Is AirFlow meant to handle large numbers of jobs?
	   ○ Redis queue

10:00pm	**Meeting End**
